

Transport 2017/2018

Although the Academy is under no obligation to provide transport, it has always tried to offer an affordable and extensive bus service for all students within our catchment area.

Students are, of course, free to travel to the Academy using alternative arrangements, but if you wish to take advantage of our transport system, we must stress that this is an annual commitment and we cannot provide refunds to students who may use different transport arrangements on occasions.

Costs are revised on a yearly basis and notice of any increase is normally made in the last term of the academic year.

Charges to students' accounts are made termly, in advance, with charges presently at **£550.00** per student per year.

Please contact the Finance Office for further information on payment by standing order.

Please note that a separate Transport Policy Form must have been completed by both parent and student for Academy Transport
