30<sup>th</sup> March 2023

Dear Parent/ Guardian,

Our Year 10 students have worked incredibly hard over the first three terms of this academic year in preparation for their mock exams this term. The students have been given a breakdown of the homework schedule for all subjects they study at Brooke Weston and Heads of Department have ensured that students are aware of where they can access revision resources for the upcoming exams.

A link to revision resources can be found via here [revision resources](#).

During weeks 6-7, Year 10 will have their mock exams for every subject. These exams are critical and give staff, students and parents a clear picture of the strengths and areas of development and revision for each student. The mock grades give students their most accurate predictions and are an important source of motivation in the final push towards the exams. The mock results also serve as a good guide as to whether your child is on track to gain entry to the Brooke Weston Sixth Form or alternative pathways post-16, or next steps post-18 such as university, apprenticeships and employment. It is important that your child is revising for these exams over the next few weeks and throughout the mock exams themselves. Not only will this provide the best possible picture of their progress but it is invaluable revision and preparation for their final exams.

The mocks take place in Term 4, Weeks 6, and 7. A list of the exams, dates and times have been shared with students already and will be shared with year 10 in assembly and can also be found here

[Year 10 mocks 2023](#).

This terms' mock examinations will be followed by Parents' Consultation Evening in term 5 where parents and students will have an opportunity to discuss with their teachers their attainment and progress within each subject. A letter will be issued regarding these events closer to the time.

Yours sincerely
