

Report Explanation Sheet

Year 12 Assessment Point 2 - 2023/2024

Current Performance (Att)

This category indicates a student's attainment grade based on the *current Assessment Point's work* in relation to national norms. It is perfectly reasonable for this to alter from Assessment Point to Assessment Point as the work or topic being covered might be more or less complex for the individual student to master.

Target (Tgt)

This is the aspirational target and is the level for the student to aim for by the *end of the Key Stage/course*. The target should not change from Assessment Point to Assessment Point as it is for students to aim for. With negotiation between the student and teacher, it may, however, be increased to ensure a suitable level of challenge for all.

Prediction (Pred)

This is how a student is likely to perform with consistent effort, hard work and dedication. It should be noted however, that the prediction is based on various factors including controlled assessment (where appropriate), effort, quality, teacher assessment and more. It is, therefore, important to ensure that the current performance (Att) is not viewed lightly and that students ensure they continue working hard to achieve the predicted outcome they have been given.

Overall Progress (Progress)

This combines the student's predicted performance and target grade to show whether the student is likely to reach their target by the *end of the Key Stage/course*, based on their teacher making a professional judgement combining all known factors.

Outstanding	the student is likely to achieve higher than their target grades
Aspirational	the student is likely to achieve their aspirational target grade
Expected	the student is likely to achieve their minimum target grade
Below	the student is unlikely to achieve their target grades

At Brooke Weston students are given two targets, a minimum and an aspirational target, with the minimum target benchmarked against the outcomes of students nationally. If not already there, students should aim to attain their aspirational target level by the end of Key Stage 5 (the end of Year 13), which is the target identified on the report sheet, in order to outperform students nationally.

Effort (Effort)

Outstanding, Good, Satisfactory or Cause for Concern is used to show a student's attitude to a subject and covers issues such as punctuality to lessons, being well prepared, completion of homework tasks, and working in a focused way.

If the work a student is producing (both in and out of lessons) is not in line with their target, this is unlikely to be Outstanding or Good. The use of Satisfactory and Cause for Concern should indicate the degree to which the work is not at the expected level.
